The “Date Arrived in ED/Acute Care” element is the date the patient arrived at the ED/hospital. If you used the ‘Date/Time Helper’ from the Demographics Screen, this information will already be in the system. Also, if you would prefer not to type the date in, click on the calendar icon and select a date. The date is used to auto-generate two additional calculated fields: Total EMS Time (elapsed time from EMS dispatch to hospital arrival) and Total Length of Hospital Stay (elapsed time from ED/Hospital Arrival to ED/Hospital Discharge). This is a National Data Element.

The “ED/Hospital Arrival Time” element is the time the patient arrived at the ED/hospital. The time is used to auto-generate two additional calculated fields: Total EMS Time (elapsed time from EMS dispatch to hospital arrival) and Total Length of Hospital Stay (elapsed time from ED/Hospital Arrival to ED/Hospital Discharge). This is a National Data Element.

ED / Acute Care Screen (3)

The screenshot shows a web application interface for the 'Patient Registry'. The browser address bar displays 'https://indianatrauma.isdh.in.gov/resource/menu/main.cfm'. The page has a dark blue header with the 'Patient Registry' logo and a navigation bar with tabs: 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located on the right. Below the header, there is a sidebar with a list of menu items: 'Facility', 'Discovery', 'History', 'Setup', 'Users', 'Pre Staff', and 'Read'. The main content area features a tabbed interface with tabs: 'Demographics', 'Injury', 'Pre-Hospital', 'ED / Acute Care' (selected), 'Initial Assessment', 'Diagnoses', 'Comorbidity', 'Procedures', and 'Complications'. The 'ED / Acute Care' tab is active, showing a form with the following sections:

- Incident Information**:
 - Validity: 63%
 - Status: In Progress
 - Lock: Unlocked (dropdown)
 - Import Status: Typed In
 - Entered: 03/21/13 by Katherine Gatz
 - Trauma Registry #: IT-130321-097
 - Patient: ,
 - Medical Record Number: 123456789
 - NTR Inclusion: No
 - Updated: 03/21/13 by Katherine Gatz
- Validity Information**: (partially visible)
- Pre-Hospital Saved**: (yellow banner)
- ED / Acute Care**:
 - Date Arrived in ED/Acute Care: [text input] [calendar icon] * ED/Hospital Arrival Time: [text input] (HHmm) *
 - Date Discharged from ED: [text input] [calendar icon] * Discharge Time: [text input] (HHmm) *
 - Length of Stay: [text input]
 - ED Disposition: [dropdown menu] (Not Applicable)

At the bottom of the form, there are three buttons: 'Back', 'Save', and 'Save and Continue'.

The “Date Discharged from ED” element is the date the patient was discharged from the ED. If you used the ‘Date/Time Helper’ from the Demographics Screen, this information will already be in the system. Also, if you would prefer not to type the date in, click on the calendar icon and select a date. The date is used to auto-generate an additional calculated field: Total ED Time (elapsed time from ED admit to ED discharge). This is a National Data Element.

The “Discharge Time” element is the time the patient was discharged from the ED. If you used the ‘Date/Time Helper’ from the Demographics Screen, this information will already be in the system. The date is used to auto-generate an additional calculated field: Total ED Time (elapsed time from ED admit to ED discharge). This is a National Data Element.

If “Died” is selected in the “ED Disposition” element, one new data element will appear on the form that will allow you to further explain the details of the death. The data element “ED Death” is the type of death suffered while the patient was in the ED. Select an option from the drop-down menu. This is a National Data Element.

ED / Acute Care Screen – ED Discharge Disposition (2)

The screenshot shows a web-based medical form titled "ED / Acute Care Screen – ED Discharge Disposition (2)". At the top, there is a navigation bar with tabs: "Demographics", "Injury", "Pre-Hospital", "ED / Acute Care" (which is highlighted in orange), "Initial Assessment", "Diagnoses", "Comorbidity", "Procedures", and "Complications". Above the tabs are links for "Search", "Actions", and "History", and a "Mark As Complete" button. The "Incident Information" section contains fields for "Validity: 63%", "Status: In Progress", "Lock: Unlocked" (with a dropdown arrow), "Import Status: Typed In", "Entered: 03/21/13 by Katherine Gatz", "Trauma Registry #: IT-130321-097", "Patient:", "Medical Record Number: 123456789", "NTR Inclusion: No", and "Updated: 03/21/13 by Katherine Gatz". Below this is a "Pre-Hospital Saved" status bar. The "ED / Acute Care" section includes "Date Arrived in ED/Acute Care" and "ED/Hospital Arrival Time (HHmm)" fields, "Date Discharged from ED" and "Discharge Time (HHmm)" fields, "Length of Stay:" text, "ED Disposition:" with a dropdown menu showing "Operating room", and "OR Discharge Disposition:" with a dropdown menu showing "Not Applicable". At the bottom, there are "Back", "Save", and "Save and Continue" buttons.
